

# MEO HUYNH

Web Developer

## PROFILE

Learning full stack web development with a focus on UX/UI at LEARN Academy, an intense and immersive full stack development program. Passion in creating websites with an approach to minimalistic design, have great UX/UI in mind, and a bigger focus on the product or message itself. Future goals include contributing to the community by providing local and nonprofit shops with new or updated websites that will help expand their businesses.

## EXPERIENCE

### FULL STACK DEVELOPER IN TRAINING – LEARN ACADEMY

Feb 2020 - June 2020  
San Diego, CA

- Experienced over 500 hours of direct coding experience constructing code individually, pair programming or through mob programming.
- Strengthened JavaScript and Ruby knowledge.
- Created full stack programs implementing Test Driven Development.

### SUBMISSION COORDINATOR – CALI-LAND INC.

Aug 2016 - Dec 2017  
San Diego, CA

- Fortified strong customer service abilities through customer-facing position by initiating all contact with clients and real estate agents to establish rapport, build trusts, and gain client's patronage.
- Increased organization skills through preparation and structuring of submissions for loan documents.
- Efficiently processed up to four loans per day with each closed loan producing an average of \$10,000 in revenue.

### DESIGN INTERN – JLY DESIGNS

May 2016 - June 2016  
New York, NY

- Established quality assurance skills from reviewing marketing material for clients ranging from non-profits, start-up organizations and Fortune 500 companies.
- Heightened ability for critical thinking skills through design brainstorming sessions of direct sales material for online information products.
- Gained insight on how graphic designers and content writers' think and their workflow through shadowing.
